

# T25 RECALL CHART

ARTIST:  
ENGINEER:  
DATE:

NOTES:  
DRAWN BY:  
STUDIO:

This recall chart shows two identical T25 Tube Compressor units connected in series. Each unit is represented by a set of controls: a compressor icon, a ratio selector (20:1, 8:1, 4:1, 2:1), an output level VU meter, and various knobs for attack, release, threshold, and make-up. A central 'LINK' button connects the two units. The 'api select' logo is visible on the right side of each unit's control panel.
